Qom silk carpet is one of the important and famous Iranian handicrafts, which is of particular importance at the global level. When many people see Qom silk carpet for the first time, they think it is a painting, and after touching it and hearing the explanation about it, they realize that it is not a painting, but is made of millions of knots of silk thread. The existence of multiple stages and the efforts of dozens of experts and loving artists, creates a unique combination of authenticity, history and culture, which can be seen in the hand-woven Qom silk carpet.

Heriz carpets are often woven with long piles and with the two-welved technique. Turkish knot (symmetrical) is used in the weaving of these carpets. The most common design is Lachak-Toranj, which is divided into different names based on the type of medallion. In addition to Heriz city, designs similar to this design are woven in the surrounding areas, such as Mehraban, Sharbian, Goravan, Qarāje and Bakhshaish. clients' personal taste

Khorasan Rug

Khorasan hand-woven carpets are mostly woven with Lachak-Toranj design, i.e. bergamot decorated with flowers and corners similar to bergamot. Other common designs in Khorasan carpet include: Floral, Afshan, vase, BoteJeghe, and Herat. Among the famous producers of Khorasan carpets, we can mention Amoghli, Makhmalbaf and Khadivi. The excellent performance of these masters made Mashhad carpets to be in a high position.

Features of Qashqai carpet

- The density of knots in Qashqai carpet is from 25 to 40 knots per 7cm.
- Both symmetric and asymmetric knots are used in carpet weaving.
- These carpets are woven using the two – wefted technique, and the wefts are mostly shades of red.
- In Qashqai carpets, light colors such as red, yellow and green are used more than dark colors such as brown and navy.
- Wool is used for pile, warp and weft of carpets. of course, in some carpets, warp and weft may be woven with cotton threads.

handmade

wool

Delivery after shipping: 5-7 days

Nain Rug

Nain handwoven carpet is woven on vertical looms with asymmetric knots and two-weft technique. Wool and silk are used for pile and cotton for warp and weft. In this carpet, white silk is used to highlight the flowers and stems of the design, which makes this carpet shine. Nain carpets have short piles and light color, and it is better to be used in low-traffic areas of the house. All sizes from 1.5 to 6 and 9 meters and oval and circular carpets can be seen in Nain carpets.

Baluch Rug

Size: W:170cm x H:245cm ± 5%
Material: Wool on cotton foundation
Density: 50 knots in 7 cm
Dyeing: Natural dyes
Technique: Hand-knotted rug
Delivery after shipping: 5-7 days

Features of Baluch rug

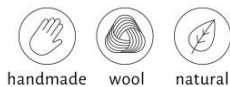

- Baluch carpets are usually woven in small sizes. The smallest Baluch carpets are usually woven in dimensions of 80×120 cm and larger carpets in dimensions of 100×150 cm. Weaving of small runners is also common among Baluch nomads.
 - In the past, the pile, warp and weft of Baluch carpets were made of sheep's wool. This was considered the characteristic of Baluch carpets, but now cotton is used for the warp and weft. Also, goat hair is sometimes used to weave carpet selvages.
 - Baluch carpets are woven with an asymmetric knot and with a thin weft technique. The weft of Baluch carpets is usually twisted brown. The number of knots in these carpets reaches 25-40 knots per 7 centimetre. Also, the carpet is woven horizontally.

Care instructions

- Check the carpets periodically and sweep them once a week.
- Try to prevent the carpet from coming into contact with moisture.
- Get help from professional carpet cleaners to wash the carpets.
- The best place to store handmade carpets is cool and moisture-free rooms with fresh air conditioning.
- Use a carpet protector under the legs of heavy furniture to prevent carpet piles from flattening.
- Avoid placing the carpet in front of the sun for a long time. You can use curtains for the windows!
- Do not use a plastic cover to store the carpet. You can use large cotton and sheets to cover the carpet.
